

Animal Habitats Dialogue

Directions: Read the conversation between Susan, Hugh, and Asli. Choose the correct word for each blank from the options provided below the dialogue.

Susan: Hi, Hugh! What are you doing?

Hugh: I'm watching a documentary about lions.

Susan: Oh, really?

Hugh: I learnt that lions live in the (1) _____ because it is warm there.

Susan: Lions live in the savanna because the weather is warm there. They can't live in cold places.

Hugh: How do penguins live in Antarctica, then?

Susan: They have to live in very cold places to keep their body temperature low.

Hugh: That's interesting! What about tigers?

Susan: They live in the (2) _____ because there are lots of trees and animals. They can hunt easily there.

Hugh: Wow! The trees are important for them. If we don't stop cutting down trees in the jungle, tigers will have no place to live. We shouldn't destroy their (3) _____.

Asli: You're right. We also need to keep the (4) _____ clean for sea animals. If we pollute water, those animals will face the danger of (5) _____.

Hugh: I'm sorry to hear that. We should all help (6) _____ animals and their habitats. If we don't, many (7) _____ will be in danger.

Asli: Yes, we need to take care of the Earth so animals can have safe homes. If we protect their habitats, they will have a better chance to survive.

Lions and tigers live in different environments.

1.

- A) savanna
- B) rainforest
- C) desert

2.

- A) ocean
- B) jungle
- C) grassland

3.

- A) farmland
- B) field
- C) habitat

4.

- A) lake
- B) ocean
- C) river

5.

- A) living
- B) extinction
- C) hunting

6.

- A) protect
- B) destroy
- C) exist

7.

- A) species
- B) insects
- C) habitats
